The 2019 vintage turned out to be a patchy and inconsistent year from beginning to end, starting with early growth and ending with a late harvest. Due to an unusual winter that was harsh at the beginning and mild towards the end, budding was quite early, while the initial vegetative growth was slow due to the soil's scarce water reserves. In the month of May, abundant rainfall and below-average temperatures slowed down growth, cancelling out the initial vegetative advance, and thereby accumulating a delay of about 2 weeks compared with the average season. The beginning of June coincided with the beginning of summer, with clear weather and high temperatures continuing each day until August which was marked by cooler temperatures and some rain that was useful for replenishing the land's water reserves. This uneven trend continued until the harvest, which turned out to be one of the latest in recent years.

Intense ruby red colour. The nose expresses notes of ripe red fruits, floral aromas of violets, forest undergrowth and finishes with pleasant hints of aromatic wood. In the mouth it is warm, with a dense texture and persistence. San Polo's Brunello Vignavecchia is perfect for long aging and improves in the bottle, thanks to the characteristics of the land it comes from.

The elegance and harmonious structure of this wine are excellent with red meats, wild game including fowl, more elaborate dishes, and even mushrooms and truffles. Excellent with cheeses such as Parmigiano Reggiano and Tuscan pecorino.
